

Go Read assembly 1-4

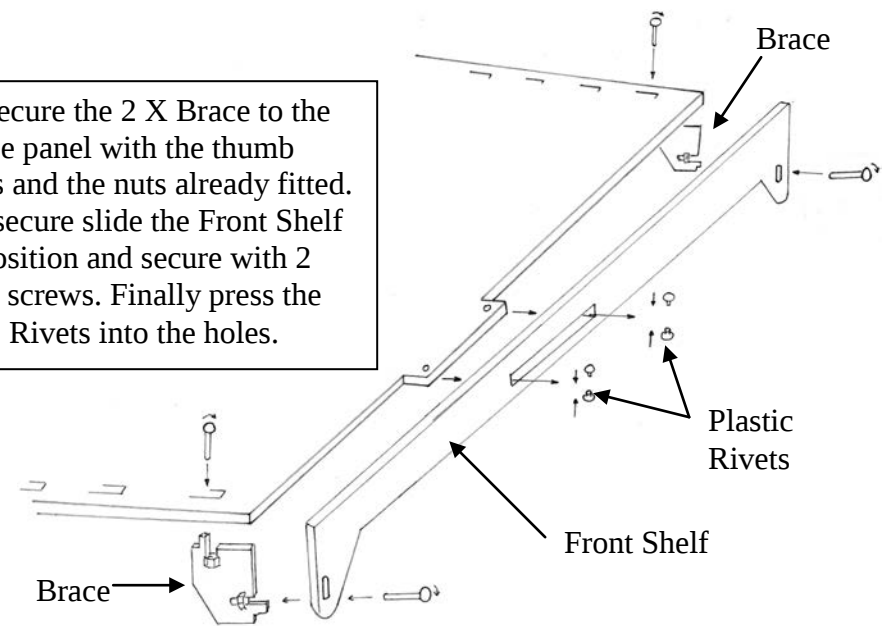

1

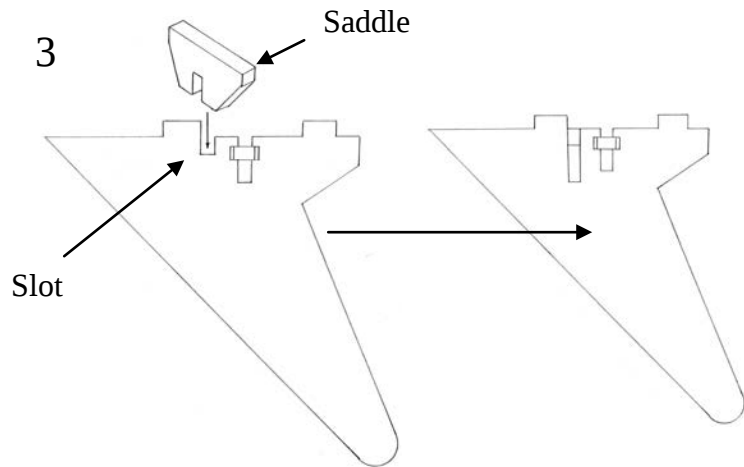

Slide the 6 nuts into the slots in the Brace and Legs. If tight, simply slide in from the opposite side of the component.

2

First secure the 2 X Brace to the Surface panel with the thumb screws and the nuts already fitted. Once secured, slide the Front Shelf into position and secure with 2 thumb screws. Finally, press the plastic Rivets into the holes.

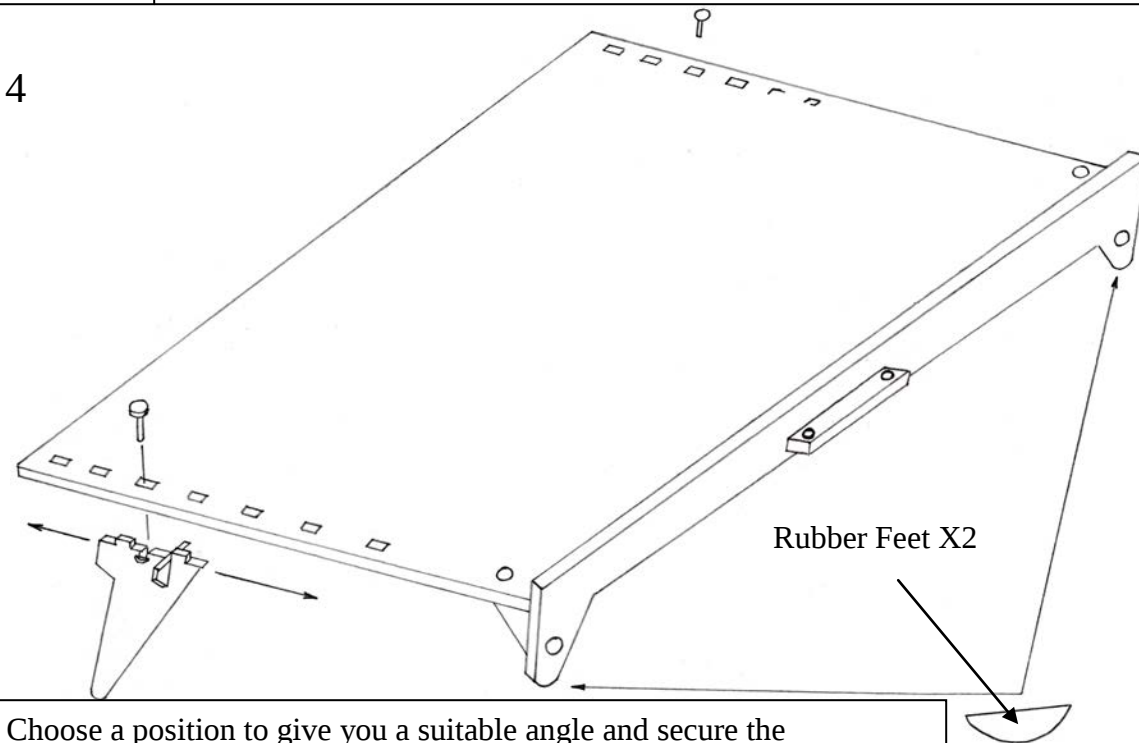

3

Slide the Saddle into the slot in the 2 Legs

WARNING. Product contains small parts and not suitable for small children.

4

Choose a position to give you a suitable angle and secure the Leg/Saddle assemblies in position with thumb screws. Attach the 2 self adhesive rubber feet under the Front Shelf
